Buds, Berries & Leaves Survey Training 1st October 2016 on Crompton Moor

Friends of Crompton Moor would like to invite you to join us for a training event organised by the....[Moors for the Future Community Science Project](#)

This training event will provide you with the skills and knowledge to undertake surveys for our Buds, Berries & Leaves phenology study. The session will incorporate a presentation on moorland plant ID with a focus on four species that are the targets of our long-term surveys, along with methods to survey those four species. Following the presentation will be an outdoor session along a fixed route transect on Crompton Moor where we will practice the methods described and ID some plants in the field while looking at their growth stages.

This event is aimed at all skill levels from beginner to advanced.

For more information, please contact moorcitizens@peakdistrict.gov.uk
