

WE CAN HELP!

The word 'HELP!' is written in large, white, bold, sans-serif capital letters. Two hands are shown reaching up from behind the letters 'H' and 'E', with fingers spread, as if trying to hold the text up or reach for it. The background is a teal-to-dark-blue gradient with a diagonal split.

Struggling with the Cost of Living?

The rising cost of basic goods, including food and bills, aren't problems you have to face alone.

Oldham Council has invested £3 million to help you make the most of your money and access support if you need it.

This leaflet contains information on how you can access the guidance and advice that's available to you.

Oldham
Council

We Can Help

“The Cost of Living Crisis is impacting on everyone. People are already struggling and worried about how they will cope over the

winter, and we know this is going to get worse for many people.

It’s one of my top priorities as Leader of the Council to support you through this crisis which is why we’re investing £3 million to widen the safety net and provide the help you need.

This investment will have a huge impact on the lives of residents – providing practical support with things such as energy bills, food and housing costs, while also putting more money in your pockets to help you stay afloat.

If you’re worried that you’re going to find yourself in difficulty, we want you to contact us as soon as possible so that we can help you before you reach crisis point. We don’t want anyone having to choose between being cold or being hungry this winter.

“We’re already seeing high demand for our support services right across the council. I have personally listened to calls coming through to the helpline from people who genuinely feel they have nowhere to turn.

This isn’t the case and by investing this money into our services, we can get people back on the right track.

We’ve put together this handbook with advice, information and contacts so you have it to hand if you need it. Stick it on your fridge, clip it to your calendar or put it with your important documents in case you need it.

At the very least, save the number for the Helpline in your contacts list. It could be the go-to number you need if you find yourself in crisis. The number is **0161 770 7007.**”

**Councillor Amanda Chadderton,
Leader of Oldham Council**

www.oldham.gov.uk/WeCanHelp

Practical advice

to save on your energy bills

- 1** Get a smart meter to monitor your energy use and keep a track on appliances that are running your bills up.
- 2** Turn your temperature down on your thermostat. It sounds obvious, but it's estimated that turning it down by even one degree could save you up to 10% on your bill.
- 3** If you have a condensing boiler (installed after 2005), you can adjust your flow temperature and save money. This is the dial with the radiator icon on the front of your boiler. Dial it down to 60°C or less if you have a newer property and your boiler will work more efficiently (condensing mode).
- 4** Bleed your radiators. If the top is cold, it's not heating fully. You need a radiator key but once bled, your boiler won't have to work as hard to keep your room warm.
- 5** Turn radiators off in rooms you're not using and close the doors. This will help insulate your home.
- 6** Keep your internal doors shut and curtains closed – especially in rooms you're not using.
- 7** If you've got laminate, wood or tiled floors, try and use a rug if you have one. Up to 10% of heat can be lost through your floors.
- 8** Not leaving appliances on standby could save up to £147 a year. These are things such as your TV, microwave or phone chargers which are all costing you money if you leave them plugged in.
- 9** Use LED bulbs. They use at least 75% less energy and last up to 25 times longer, than regular bulbs.
- 10** If you're making a brew, only boil enough for the cups you're making. Your kettle won't need to work as hard so it's cheaper to run.

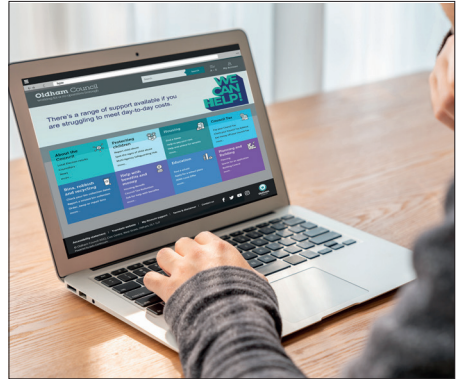

0161 770 7007

www.oldham.gov.uk/WeCanHelp

Practical help

You can go to any Oldham Library to use a computer or borrow a tablet. Bookings are also available to support with Cost of Living including how to use price comparison websites to help save money, search for jobs or do online courses. You can even borrow a Chromebook to take home.
www.oldham.gov.uk/libraries

Stay Scam Aware

Nobody from Oldham Council or the Government will ever text or call you to ask for your financial details.

Winter energy discounts are being given directly to suppliers so you will not be asked to apply for them via online webforms.

Other forms of scam include:

- phone calls from people pretending to offer financial help if you help them first
- malicious links through texts or WhatsApp messages
- emails asking you to hand over personal details

If you're in doubt about whether something is legitimate, then it's better to be cautious and not give them any personal information before checking it is a legitimate ask.
